PROJECT ON

Code Refactoring and Bug Fixing

About me

❑ Hey there! I am Sachin Sabale, I have completed an undergraduate in Computer Engineering .

❑ Exploring the purpose of life and the mysteries of existence are my intellectual pursuits that fuel my desire to make a meaningful impact.
In the realm of technology, I have found my niche in the fields of Deep Learning and Artificial Intelligence. With a keen interest in these cutting-edge disciplines, I actively seek opportunities to contribute my skills and knowledge to their advancement.

Agenda

Objective of the Project:

The aim of the project is to improve the current codebase and guarantee the smooth operation of the Note Taking Application. It involves documenting any bugs found while debugging. The objective isn't to start from scratch but to rectify issues within the existing codebase and restore the application to its intended functionality.
